In our original paper, there were errors in the units of the x-axis of figure 6B; the units were CSP (mg BSA eq. L⁻¹) and should have been CSP (µg BSA eq. L⁻¹). Figure 7 was also changed so that the concentration of CSP in figure 6B and 7 are the same; previously the values were slightly different due to the use of a different blank. The blank was corrected and the figures are now consistent; these changes do not in any way affect the results presented in Figure 7. Neither change affects the results or conclusions given in the paper.
